

MIKI BROADCAST

smart connection

Microphone cable with integrated metal cased pre-amplifier

Deliver perfect audio in the most demanding conditions

Portable, professional quality microphone recording in more difficult environments is now easy to achieve with the MIKI Metal Broadcast Smart Connection. Favoured by the world's major broadcasters, MIKI allows users to connect a microphone, headphones and mobile device as one unit with a single cable for the ultimate in interview or location recording audio. And musicians love it too!

Highlights

- ◇ Ruggedized microphone cable and metal pre-amplifier casing for the more demanding professional
- ◇ Premium quality audio, simple to use
- ◇ Extremely portable, no batteries or extra cable needed
- ◇ Multi-platform

XLR Connector

Metal Switchcraft XLR connector for microphone.
Connect any dynamic microphone to this cable.

Insert your headphone into the stereo 3.5 mm socket for headphones.

Adjustable input sensitivity switch

HI maximum gain LO attenuation of 10dB LINE attenuation of 40dB

3.5 mm Jack Plug

Slim, bumper friendly, custom made 3.5 mm jack plug easily inserts into the headset input of smartphones, tablets and other mobile devices.

Audio Specifications

- ◇ Frequency response: 20Hz to 20kHz
- ◇ Gain: -33dB to +7dB
- ◇ Input impedance: 100K to 1K

Get our LUCI Software with your MIKI

Seamless operation with LUCI LIVE, LUCI LIVE Lite and other live broadcasting software, ensuring the perfect input level for all recordings.

Use the sensitivity switch on the MIKI cable to ensure the phone's input is not overloaded at the loudest volumes. Try to get the volume level to peak between -20dB and -10dB.

Then use the MIC level in LUCI LIVE to increase the volume level if required.

Some other features

- ◇ A single cable which connects a microphone, headphones and mobile device provides the ultimate solution for portable, high quality recording.
- ◇ Ruggedized microphone cable and metal pre-amplifier casing ensures optimum results in difficult environments.
- ◇ Includes 1.5 metres of professional microphone cable with integrated preamp, producing gain of +7dB, and high quality headphone output.
- ◇ Carefully selected audio components deliver best in class sound quality.
- ◇ A weight of just 110 grams means MIKI Broadcast is unnoticeable in the user's bag.

MIKI BROADCAST

smart connection
